## Welcome to Dubai's Most Trusted Automatic Washing Machine Repair Service

---

Is your automatic washing machine not working? We specialize in same-day emergency repairs for all major brands including LG, Samsung, Bosch, Whirlpool, Panasonic, and more. Our certified technicians have over 12 years of experience fixing automatic washing machines in Dubai. With over 5,000 successful repairs completed, we understand every problem your automatic washing machine might face—from simple drain clogs to complex motor failures.

Whether you're dealing with a stubborn leak, strange noises, or an automatic washing machine that won't spin, we provide transparent pricing, genuine spare parts, and a 12-month workmanship warranty on all automatic washing machine repairs. Same-day service available 24/7 for emergency situations.

## Quick Problem Diagnosis Guide

---

Use this table to identify your washing machine problem and understand what needs to be fixed. Each symptom typically has a clear cause and a proven solution.

| Problem                                            | Symptoms                                                                                       | Common Cause                                                                                               | Solution                                                                              |
|----------------------------------------------------|------------------------------------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------|---------------------------------------------------------------------------------------|
| <b>Automatic Washing Machine Won't Drain Water</b> | Water stays in automatic washing machine drum, error codes E7/E9, clothes remain wet           | Clogged drain hose, blocked pump filter, foreign object in drain                                           | Same-day drain cleaning or pump replacement (AED 150-300)                             |
| <b>Automatic Washing Machine Leaking Water</b>     | Water pools under automatic washing machine or during wash/spin cycle                          | Damaged door seal (very common in Dubai's heat), cracked inlet hose, loose connection                      | Seal or hose replacement (AED 150-300)                                                |
| <b>Automatic Washing Machine Unusual Noises</b>    | Grinding, squealing, banging, or rattling sounds during automatic washing machine cycle        | Automatic washing machine drum bearing wear, foreign object stuck inside, damaged automatic pump           | Automatic washing machine bearing replacement or foreign object removal (AED 300-600) |
| <b>Automatic Washing Machine Won't Spin</b>        | Clothes stay wet, automatic washing machine motor runs but no spin cycle                       | Broken belt, automatic washing machine motor failure, lid switch problem, unbalanced load                  | Automatic washing machine motor/belt repair or replacement (AED 350-700)              |
| <b>Automatic Washing Machine Won't Start</b>       | Automatic washing machine completely unresponsive, no lights or sounds                         | Power supply issue, automatic washing machine door lock problem, control board failure                     | Automatic washing machine diagnostic check + targeted repair (AED 200-500)            |
| <b>Automatic Washing Machine Limescale Buildup</b> | Poor wash quality, white deposits visible inside automatic washing machine, reduced water flow | Dubai's hard water creates mineral deposits inside automatic washing machine over time (very common issue) | Deep automatic washing machine descaling + preventive maintenance (AED 100-200)       |
| <b>Automatic Washing</b>                           | Error codes E2, E4, E8, FE, UE, PE showing on                                                  | Water supply issue, load imbalance,                                                                        | Automatic washing machine error code                                                  |

| Problem                                                | Symptoms                                                                        | Common Cause                                                                                                               | Solution                                                                            |
|--------------------------------------------------------|---------------------------------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------|
| <b>Machine Display Error Codes</b>                     | automatic washing machine screen                                                | automatic washing machine sensor fault, drainage problem                                                                   | diagnosis + specific component repair (AED 200-400)                                 |
| <b>Automatic Washing Machine Vibration During Spin</b> | Excessive shaking, automatic washing machine movement across floor, loud noises | Automatic washing machine drum bearing wear, load imbalance, shipping bolt not removed (in new automatic washing machines) | Automatic washing machine bearing check/replacement or load balancing (AED 200-350) |

# Why Automatic Washing Machine Owners in Dubai Choose Us

We're not just a repair service—we're your partner in keeping your washing machine running efficiently for years to come. Here's why thousands of Dubai families trust us:

 **Same-Day Automatic Washing Machine Emergency Repair**

Book within 2 hours, we arrive same day. Fastest response time in Dubai for automatic washing machine repair emergencies. Available 24/7, including weekends and holidays. Most automatic washing machine repairs completed within 4 hours of arrival.

 **Certified Automatic Washing Machine Technicians (12+ Years)**

Our team holds international certifications for LG, Samsung, Bosch & Whirlpool automatic washing machine repairs. Each technician is trained specifically on automatic front-load and top-load automatic washing machines. Continuous training on new automatic washing machine models ensures expertise with latest technology.

### **Genuine Spare Parts Guarantee**

100% original parts only. No counterfeit or refurbished components. Every replacement carries a 2-year warranty. We maintain stock of over 500 genuine parts for top 25 brands. Parts sourced directly from manufacturer authorized distributors.

### **Transparent Pricing (No Hidden Charges)**

Service call fee: AED 89 (fully credited toward repair cost). All labor and parts quoted upfront before work begins. No surprise charges. 24-hour price guarantee—if you get a lower quote elsewhere, we'll match it.

### **Dubai Hard Water Specialist**

We address limescale buildup unique to Dubai's hard water conditions. Preventive maintenance packages available to extend machine life by 5+ years. Specialized descaling treatments prevent future mineral deposits.

### **12-Month Automatic Washing Machine Workmanship Warranty**

If the same part fails within 12 months due to our automatic washing machine repair, we fix it free. Full automatic washing machine parts warranty: 2 years. Peace of mind guarantee on every automatic washing machine repair. Money-back guarantee if automatic washing machine repair unsuccessful.

---

## **Automatic Washing Machine Repair by Brand in Dubai**

---

Each washing machine brand has unique engineering, technology, and common failure points. Our specialists are trained on brand-specific issues and maintain genuine parts inventory for all popular brands. This specialized expertise ensures your machine gets exactly the right repair, not a generic fix.

## **LG Automatic Washing Machine Repair Dubai**

**Brand Specialization:** Direct Drive motors, TurboWash technology, AI DD (Artificial Intelligence Fabric Detection)

### **Common LG Issues We Fix:**

- **Door Lock Mechanism Failure (FE, FH Series):** Door won't open after cycle or locks mid-cycle. Most common in machines 3-6 years old. Repair: AED 200-350
- **Drainage Issues with Inverter Motor:** Water doesn't drain properly or drains very slowly. Caused by pump blockage or motor issues. Repair: AED 250-450
- **Display Error Codes E7, E9, UE, PE:** Temperature sensor fault, water supply issue, or motor problem. Requires diagnostic scan. Repair: AED 180-400
- **Drum Bearing Wear (6-8 year old models):** Grinding noise during spin, clothes not properly extracted. Common in older LG front-load machines. Repair: AED 400-700
- **Control Board Malfunction:** Machine doesn't respond to button presses or stops mid-cycle. Repair: AED 350-600

**Why Choose Us for LG Automatic Washing Machine Repair in Dubai:** 15+ years specialized LG automatic washing machine repair expertise in Dubai. Same-day parts availability for top 20 LG automatic washing machine models in UAE. We're familiar with all LG automatic washing machine series from 2010-2026. Authorized LG automatic washing machine parts supplier in Dubai with genuine component guarantee. Expert LG automatic washing machine technicians ready for emergency repairs across Dubai.

## **Samsung Automatic Washing Machine Repair Dubai**

**Brand Specialization:** EcoBubble technology, Digital Inverter, SmartThings Smart Control connectivity, VRT (Vibration Reducing Technology)

### **Common Samsung Issues We Fix:**

- **Inverter Motor Failures (Most common in Dubai heat):** Motor makes strange sounds, machine won't spin, or stops unexpectedly. Samsung's inverter motors are susceptible to Dubai's extreme temperatures. Repair: AED 450-750
- **Control Panel Circuit Board Faults:** Display shows error codes, unresponsive to input, or programs don't start. Common in WF series. Repair: AED 300-500
- **Water Inlet Valve Malfunction:** Machine won't fill with water or fills slowly. Valve gets stuck or corroded. Repair: AED 150-300
- **Bearing Issues in WF, WD Series (4-7 years old):** Grinding noise, vibration during spin, drum doesn't rotate smoothly. Repair: AED 380-650
- **Drain Pump Blockage:** Water backs up, error codes displayed, clothes stay wet. Repair: AED 200-400

**Why Choose Us for Samsung Automatic Washing Machine Repair in Dubai:** Authorized Samsung automatic washing machine repair partner in Dubai. Carries 30+ genuine Samsung automatic washing machine components in stock for immediate Dubai repairs. Experience with all Samsung WF, WD, and latest AI series automatic washing machine models available in Dubai. Specialized knowledge of EcoBubble sensor issues in Samsung automatic washing machines. Same-day Samsung automatic washing machine repair available throughout Dubai.

→ **Samsung Automatic Washing Machine Emergency Repair in Dubai: CALL NOW**

## **Bosch Automatic Washing Machine Repair Dubai**

**Brand Specialization:** VarioPerfect system, PrecisionWash, EcoTherm heating, i-Dos automatic detergent dispensing

### **Common Bosch Issues (Dubai-Specific Problems):**

- **Limescale Buildup in Heating Element (VERY COMMON in Dubai):** Poor wash performance, reduced water temperature, energy consumption increases. Dubai's hard water creates mineral deposits that damage heaters. Repair: AED 150-300 (preventive: AED 80-120)
- **Door Seal Degradation (3-5 years old machines):** Leads to leaks, mold growth, and foul odors. Dubai's heat accelerates rubber degradation. Repair: AED 180-350
- **Vibration Problems During Spin Cycle:** Machine shakes excessively, moves across floor. Common in WAQ, WAE series. Repair: AED 200-400
- **Water Temperature Sensor Failures:** Incorrect water temperature, error codes, energy waste. Repair: AED 120-250
- **Pump Impeller Breakage:** Drain issues, water backup, noise during drainage. Repair: AED 200-380

**Why Choose Us for Bosch Automatic Washing Machine Repair in Dubai:** Bosch certified automatic washing machine repair technicians on staff in Dubai. Specialized hard water maintenance packages specifically for Dubai's mineral-rich water affecting automatic washing machines. We're experts in Bosch's complex automatic washing machine heating and sensor systems for Dubai residences. Access to full Bosch automatic washing machine parts catalog in Dubai. Professional Bosch automatic washing machine limescale treatment unique to Dubai water conditions.

→ **Expert Bosch Automatic Washing Machine Repair in Dubai: CALL NOW**

## **Whirlpool Automatic Washing Machine Repair Dubai**

**Brand Specialization:** 6th Sense technology, Zen design, Russian water level system, Adaptive Wash technology

### **Common Whirlpool Issues We Fix:**

- **Drain Pump Failures in Top-Load Models:** Water doesn't drain, clothes stay wet, error codes displayed. Very common issue in older Whirlpool models. Repair: AED 250-450
- **Hose and Connector Deterioration:** Cracks develop over time due to water pressure and temperature changes. Leads to leaks and water damage. Repair: AED 100-250
- **Control Panel Responsiveness Issues:** Buttons stick or don't respond, cycles pause unexpectedly. Repair: AED 200-350
- **Bearing and Drum Problems (5+ years old):** Grinding noise, vibration, drum movement. Common in WH, AWW series. Repair: AED 350-600
- **Water Level Sensor Faults:** Machine overfills or underfills, causing wash quality issues. Repair: AED 150-280

**Why Choose Us for Whirlpool Automatic Washing Machine Repair in Dubai:** 10+ years Whirlpool automatic washing machine repair service history in Dubai. Preventive maintenance specialist for Whirlpool automatic washing machines—our Dubai packages reduce future repair needs by 60%. Stock 25+ Whirlpool automatic washing machine genuine parts available in Dubai. Expertise with both top-load and front-load Whirlpool automatic washing machine models used in Dubai homes.

→ **Whirlpool Automatic Washing Machine Expert Repair in Dubai: CALL NOW**

## **Panasonic Automatic Washing Machine Repair Dubai**

**Brand Specialization:** Econavi technology, Stainless steel tubs, Aqua Beat, Quick Wash features

### **Common Panasonic Issues We Fix:**

- **Water Level Sensor Malfunctions:** Machine overfills or underfills water, affecting wash quality and energy efficiency. Common in NA series. Repair: AED 120-250
- **Eco-Mode Feature Failures:** Eco programs don't activate or don't work properly. Repair: AED 150-300
- **Door Mechanism Problems:** Door won't lock or unlock, cycle starts before door properly closes. Repair: AED 180-350
- **Stainless Steel Drum Surface Damage:** Rust spots develop (rare with Panasonic but happens in hard water areas), affecting wash performance. Repair: AED 250-450
- **Motor Speed Control Issues:** Incorrect spin speeds, inconsistent performance. Repair: AED 200-400

**Why Choose Us for Panasonic Automatic Washing Machine Repair in Dubai:** Panasonic-certified automatic washing machine repair center in Dubai. Complete spare parts catalog for all Panasonic automatic washing machine models sold in UAE. Expertise with Econavi sensor systems in Panasonic automatic washing machines used in Dubai. Same-day Panasonic automatic washing machine parts availability for Dubai customers. Emergency Panasonic automatic washing machine repair available 24/7 across Dubai.

→ **Panasonic Automatic Washing Machine Quick Fix Service in Dubai: CALL NOW**

## **Electrolux & Other Brand Automatic Washing Machine Repair**

**Brands We Repair:** Electrolux, Siemens, Arçelik, Vestel, Candy, Beko, Bauknecht, AEG, Zanussi

### **Our Multi-Brand Expertise:**

- Experience with 25+ international brands commonly used in UAE
- Access to specialized parts for European brands (Siemens, Electrolux, AEG)
- Understanding of brand-specific warranty requirements
- Ability to diagnose and repair complex electronic systems in premium brands
- Knowledge of regional models exclusive to Middle East market

**Common Multi-Brand Issues:** Door seal problems, pump failures, bearing wear, electronic control failures, hard water damage

**Why Choose Us for Other Automatic Washing Machine Brands Repair in Dubai:** Don't limit yourself to brand specialists—our 12+ years automatic washing machine repair experience means we can handle virtually any automatic washing machine brand in Dubai. We maintain relationships with suppliers for rare automatic washing machine parts in UAE. Expert diagnostic expertise across all modern automatic washing machine technologies for Dubai customers.

# Complete Symptoms & Solutions Guide

---

This comprehensive section helps you understand what your washing machine symptoms mean and which issues require urgent attention.

## Critical Issues (Repair Within 24 Hours)

These problems can cause property damage or safety hazards. Stop using your machine and call immediately.

### Water Leaking from Machine

**Why It's Critical:** Can cause water damage to your home, mold growth, and electrical hazards.

**What You'll Notice:** Water pooling under the machine, water visible during wash cycle, water coming from door seal, wet floors in laundry area.

#### **Possible Causes:**

- Damaged door gasket/seal (most common, especially in 3-5 year old machines in Dubai due to heat exposure)
- Cracked inlet hose or outlet hose
- Loose hose connection at inlet or drain
- Pump failure or cracks in pump housing
- Tub perforation or cracks inside machine

**What We Do:** Visual inspection of all hoses and seals. Pressure test to identify leak location. Replace damaged components with genuine parts. Full system check to prevent future leaks.

**Estimated Repair Cost:** AED 200-500 (depends on component)

### Burning Smell or Smoke

**Why It's Critical:** Immediate fire hazard and electrical danger.

**What You'll Notice:** Burning odor coming from machine, visible smoke or steam, electrical sparks, machine getting very hot.

**Possible Causes:**

- Motor overheating due to excessive friction
- Electrical wiring short circuit
- Control board malfunction with electrical fire risk
- Bearing failure with friction buildup
- Foreign metal objects inside machine

**What You Should Do:** STOP using immediately. Unplug the machine. Don't use it again until repaired. Call emergency service.

**Estimated Repair Cost:** AED 300-700

 **Won't Drain Water at All**

**Why It's Urgent:** Water sitting in machine causes mold, mildew, and foul odors. Can damage clothes permanently. Machine unusable.

**What You'll Notice:** Water still in drum after cycle complete, error code E7 or E9, clothes extremely wet, foul smell inside machine.

**Possible Causes (Very Common in Dubai):**

- Blocked drain pump filter (most common cause—hair, lint, coins accumulate)
- Clogged drain hose (kinks, ice buildup, or debris blocking flow)
- Pump impeller damage or bearing wear
- Drain system trap clogged
- Faulty pump motor

**What We Do:** Check drain hose for blockages. Clean pump filter thoroughly. Test pump motor functionality. Clear any debris. Replace pump if damaged.

**Estimated Repair Cost:** AED 150-400

These problems affect machine functionality significantly and can worsen over time.

### ● **Unusual Grinding, Squealing, or Banging Noise**

**Why It's Urgent:** Indicates internal component wear that will worsen. Can cause additional damage if ignored.

**What You'll Notice:** Loud grinding noise during spin, high-pitched squealing sound, banging or thumping during operation, noise increases over weeks.

#### **Possible Causes:**

- Drum bearing wear (most common in machines 5+ years old)
- Foreign object stuck inside drum (coin, wire, bone from clothing)
- Worn pulley or belt issues
- Motor bearing degradation
- Drum glides worn out (allows drum to touch tub walls)

**What We Do:** Disassemble machine to inspect bearings. Remove any foreign objects. Replace worn components. Test for noise reduction after repair.

**Estimated Repair Cost:** AED 350-600

### ● **Won't Spin or Very Slow Spin Cycle**

**Why It's Urgent:** Clothes remain wet, leading to mold and mildew. Extended drying times. Washing capacity reduced.

**What You'll Notice:** Cycle completes but clothes stay extremely wet, spin motor runs but drum doesn't rotate, error code displayed, cycle takes much longer than normal.

#### **Possible Causes:**

- Broken or slipped belt (can be heard as squealing)
- Motor failure or motor capacitor issue
- Lid switch not functioning (safety feature prevents spin without closed lid)
- Drum seizing due to bearing failure
- Unbalanced load sensor triggering safety shutdown

**What We Do:** Inspect belt condition. Test motor functionality. Check lid switch operation. Balance load sensor. Replace motor or belt as needed.

**Estimated Repair Cost:** AED 250-500

### **Door Won't Open After Cycle Complete**

**Why It's Urgent:** Can't access clothes, potential water damage if door lock mechanism is faulty, frustration and urgency for daily use.

**What You'll Notice:** Automatic washing machine cycle finished but door handle won't budge, door appears locked even after power-off, error code shown on automatic washing machine display.

#### **Possible Causes:**

- Door lock solenoid failure (very common in LG automatic washing machines)
- Temperature sensor fault preventing automatic washing machine lock release
- Automatic washing machine electronic control board malfunction
- Automatic washing machine mechanical latch stuck or damaged

**What We Do:** Safety reset of electronic lock system. Replace solenoid if faulty. Test door mechanism after repair. Ensure lock functions correctly.

**Estimated Repair Cost:** AED 180-400

## **Preventive Issues (Schedule Within 1 Week)**

These issues don't make the machine unusable but affect performance and efficiency. Address them to prevent bigger problems.

### **Reduced Wash Performance**

**Why It Matters:** Clothes don't get clean properly, waste of water and electricity, affects laundry quality.

**What You'll Notice:** Clothes coming out dirtier than expected, stains not removing, soap residue visible, dull fabrics after washing.

#### **Possible Causes:**

- Detergent buildup inside machine (most common)
- Limescale deposits on heating element and drum (very common in Dubai hard water)
- Clogged detergent dispenser drawer
- Water inlet filter blocked
- Aging wash pump not creating proper water circulation

**Solution:** Deep cleaning cycle using vinegar or commercial descaler. Clean all internal components. Replace inlet filter. Flush detergent drawer.

**Estimated Cost:** AED 100-200

### ● Slight Vibration During Spin

**Why It Matters:** Indicates developing bearing wear or load imbalance issues. Can worsen to severe vibration.

**What You'll Notice:** Machine vibrates during spin cycle, slight thumping sound, slight movement on floor, frequency increases over weeks.

#### **Possible Causes:**

- Early bearing wear (will worsen over time)
- Shipping bolt not removed (in recently purchased machines)
- Machine not level on floor
- Feet needs tightening or adjustment

**Solution:** Automatic washing machine level check and foot adjustment. Automatic washing machine bearing inspection. Tightening of loose automatic washing machine components.

**Estimated Cost:** AED 200-350

### ● White Deposits or Residue Inside Drum

**Why It Matters (DUBAI-SPECIFIC ISSUE):** Hard water minerals buildup reduces efficiency, damages clothes over time, shortens machine lifespan.

**What You'll Notice:** White chalky deposits on drum walls and rubber seal, decreased heating performance, water spots on clothes, musty smell from drum.

**Cause - Dubai Hard Water:** Dubai's water hardness is 500+ ppm (very hard). Calcium and magnesium minerals accumulate inside heating elements, pipes, and drum surfaces. This is one of the most common issues we see in Dubai washing machines.

**Solution:** Professional descaling service. Vinegar or commercial descaler run through machine. Drain valve cleaning. Preventive maintenance program to avoid recurrence.

**Estimated Cost:** AED 80-150 (preventive), AED 200-350 (heavy deposit removal)

---

# Frequently Asked Questions About Automatic Washing Machine Repair

---

Get answers to the most common questions about our repair service, costs, and machine maintenance.

## ? How long does automatic washing machine repair typically take?

**Answer:** Automatic washing machine repair time depends on the problem:

- **Simple automatic washing machine repairs (drain cleaning, hose replacement):** 1-2 hours
- **Moderate automatic washing machine repairs (motor replacement, bearing work):** 2-4 hours
- **Complex automatic washing machine repairs requiring diagnostics and part ordering:** Next-day service
- **Emergency same-day automatic washing machine repairs:** Available 24/7, most completed same day

We always provide automatic washing machine repair time estimates upfront so you can plan accordingly.

## ? What is the average cost to repair an automatic washing machine in Dubai?

**Answer:** Automatic washing machine cost breakdown:

- **Service call fee:** AED 89 (fully credited toward automatic washing machine repair if you proceed)
- **Minor automatic washing machine repairs (drain, seals, hoses):** AED 150-500

- **Moderate automatic washing machine repairs (motors, belts, bearings):** AED 350-800
- **Major automatic washing machine repairs (extensive bearing damage, motor replacement):** AED 600-1200
- **Average automatic washing machine repair cost:** AED 350-450 (including parts and labor)

All automatic washing machine repair prices are quoted before work begins with no hidden charges.

## ? Why is my automatic washing machine leaking water?

**Answer:** Top causes of automatic washing machine leaks in Dubai:

- **Damaged door gasket/seal (most common, 40% of leak cases):** Especially in 3-5 year old automatic washing machines due to Dubai's extreme heat. Rubber degrades faster in high temperatures. Repair: AED 150-300
- **Cracked inlet hose (25% of cases):** Check automatic washing machine connection points. Water pressure and temperature cycling causes cracks. Repair: AED 80-200
- **Pump failure (20% of cases):** If water pools under automatic washing machine. Repair: AED 250-400
- **Blocked drain system (10% of cases):** Water backs up instead of flowing out of automatic washing machine. Repair: AED 150-300
- **Loose connections (5% of cases):** Inlet or outlet connections not tightened on automatic washing machine. Repair: AED 50-100

We diagnose and fix automatic washing machine leaks same-day with our specialized detection equipment.

## ? How can I prevent automatic washing machine problems?

**Answer:** Maintenance tips to extend automatic washing machine life:

- **Clean automatic washing machine drum monthly:** Run empty hot cycle with vinegar to prevent limescale (Dubai hard water issue). Cost: free

- **Automatic washing machine descaling program:** Run commercial descaler quarterly in Dubai. Cost: AED 80-150
- **Check automatic washing machine inlet hoses quarterly:** Look for cracks, leaks, or bulges. Replace if damaged. Cost: AED 80-200 if replacement needed
- **Empty pockets before using automatic washing machine:** Coins, bones, and metal objects damage automatic washing machine drum. Cost: free
- **Use appropriate automatic washing machine detergent amount:** Excess detergent causes buildup and efficiency loss. Cost: free
- **Annual preventive automatic washing machine servicing:** Professional inspection and maintenance. Cost: AED 250-350
- **Our automatic washing machine maintenance packages:** Prevent 80% of common repairs through regular service. Cost: AED 200-400/year

Preventive automatic washing machine maintenance saves thousands in future repairs.

## ? What brands of automatic washing machines do you repair?

**Answer:** We repair all major brands commonly used in Dubai:

- **Premium European Brands:** LG, Samsung, Bosch, Whirlpool, Electrolux, Siemens, AEG, Zanussi
- **Asian Brands:** Panasonic, Toshiba, Sharp, Hitachi
- **Middle East Brands:** Arçelik, Vestel, Beko, Candy
- **Other Brands:** Bauknecht, Indesit, and more

We carry genuine spare parts for top 25 brands. Each technician is certified in multiple brands. If we can't find genuine parts, we'll source them or recommend the best alternative.

## ? Do you use genuine automatic washing machine spare parts or cheap alternatives?

**Answer:** 100% genuine automatic washing machine parts only. Here's our commitment:

- Every automatic washing machine spare part is original from manufacturer

- No refurbished, second-hand, or counterfeit automatic washing machine components
- 2-year warranty on all automatic washing machine replacement parts
- Automatic washing machine parts sourced from authorized distributors
- Full traceability and automatic washing machine parts authenticity guarantee
- We'll show you the automatic washing machine part packaging before installation

Using genuine automatic washing machine parts ensures your automatic washing machine works properly and lasts longer.

### ? What warranty do you offer on automatic washing machine repairs?

**Answer:** Comprehensive automatic washing machine warranty coverage:

- **Automatic washing machine workmanship warranty:** 12 months on all labor
- **Automatic washing machine parts warranty:** 2 years on all genuine spare parts
- **If same part fails:** We fix your automatic washing machine free within warranty period
- **Money-back guarantee:** If automatic washing machine repair unsuccessful, get full refund
- **Follow-up service:** Free service visit if automatic washing machine issue persists after repair

This is the strongest automatic washing machine warranty offered by any repair service in Dubai.

### ? Can you come for emergency automatic washing machine same-day repair?

**Answer:** Yes, absolutely. We offer 24/7 automatic washing machine emergency service:

- Book within 2 hours, we arrive same day for automatic washing machine repair
- Available 24/7 including weekends and holidays for automatic washing machine emergencies

- Emergency automatic washing machine service charge: AED 89 (same as standard)
- No additional emergency surcharge for automatic washing machine repairs
- Committed to same-day automatic washing machine repair whenever possible

Whether it's midnight or morning, we're here when you need us for automatic washing machine repair.

### ? How does Dubai's hard water affect my automatic washing machine?

**Answer:** Dubai's water hardness causes significant automatic washing machine problems:

- **Water hardness in Dubai:** 500-600 ppm (very hard) vs. recommended 60-120 ppm for automatic washing machines
- **Calcium and magnesium buildup in automatic washing machine:** Accumulates in heating elements, pipes, and drum over time
- **Reduced automatic washing machine efficiency:** Automatic washing machine works harder, heats water slower, consumes more electricity
- **Shortened automatic washing machine lifespan:** Mineral deposits cause premature automatic washing machine component failure
- **Poor automatic washing machine wash quality:** Deposits interfere with automatic washing machine wash performance
- **Solution:** Monthly automatic washing machine descaling, professional automatic washing machine maintenance, hard water-specific detergents for automatic washing machines

We're specialists in addressing Dubai's hard water challenges through automatic washing machine preventive maintenance.

---

## Our Expert Team & Professional Credentials

---

Your washing machine repair is handled by certified, experienced professionals who understand modern automatic washing machine technology inside and out.
